

The laws are not waiting

- Enforcement is tightening this year.
- Independents like **Topvapeone** are often first in the spotlight.

*“Regulators won’t just ask “Do you have AV?” — they’ll ask “**Can you prove it?**”*

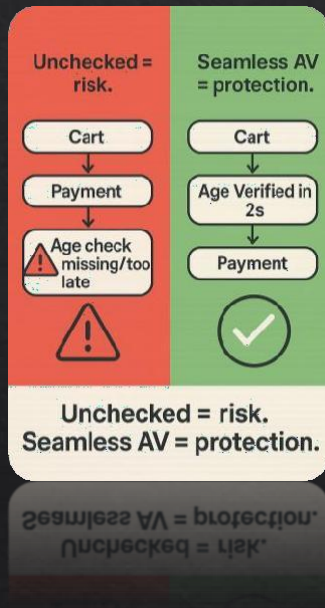

One delay = reputational damage

- Manual checks or missing AV = delayed orders.
- Delays become complaints, then reviews.
- Nothing is more damaging than making a loyal adult customer feel distrusted.
- Reputation takes years to build—one miss can undo it.

“Smooth age checks protect not just your compliance, but your customers’ dignity — no embarrassing fails or unnecessary delays.”

Late or missing AV is a ticking time bomb

- If age checks trigger **after payment** (or not at all), regulators view it as **non-compliance**.
- Customers see it as **irresponsible** — screenshots spread fast.
- One sting or headline = **finances, reputational loss, even closure**.

👉 *Blocknetica fixes this with <2s checks at the right point — seamless for adults, regulator-ready proof for you.*

Why Top Vape One Customers Drop Off — Friction in Today's Age Verification

20–30%
customers
abandon checkout
when asked to
upload ID or re-
enter details

25+ year olds with
youthful looks
wrongly blocked
→ complaints +
churn

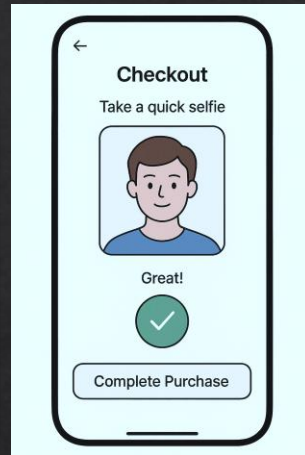

Big AV
providers force
independents
into costly
contracts and
high per-check
minimums

Trading Standards
knock: “Prove your
AV checks” →
independents with
manual logs are
exposed

How Vape Store could make Age Verification easy for Customers

AI-powered selfie-first estimation (<2s), tuned for vape merchants only far fewer false negatives, smoother approvals.

Selfie-first, instant pass for most. fallback to ID only if necessary, lower cart abandonment

Pooled economics affordable per-check rates, no crushing minimums

1-click immutable compliance pack, timestamped receipts, regulator-ready instantly.

“Fewer cancellations, fewer complaints, happier customers — without weakening compliance.”

“Audit-Proof Protection for You”

“Every Top Vapeone check is logged in a secure ledger: time, result, action taken. When Trading Standards ask, you can prove compliance instantly.”

- Every check is automatically recorded in a **secure, tamper-proof ledger**.
- **1-click evidence pack** (CSV + PDF) for Trading Standards.
- No admin overhead→ the system does it **in the background**.
- Proof on demand—no scramble.

👉 When Trading Standards ask: *“Show us your checks,”* you can **prove it instantly**.

Pooled economics = survival pricing

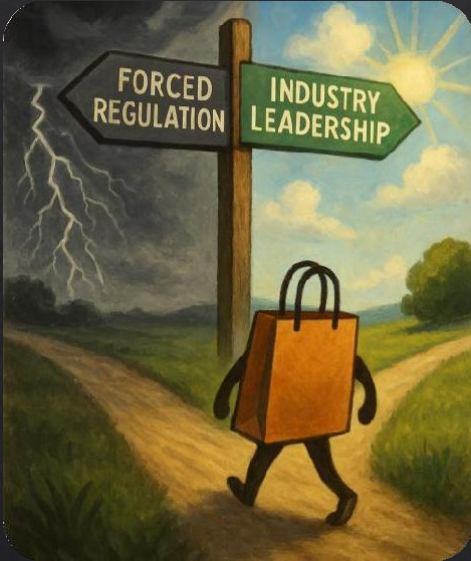

Why pay for exceptions alone?

“Instead of paying alone, Top Vapeone shares verification volume across a pooled network — lowering costs and future-proofing compliance.”

- Independents face high AV provider minimums.
- Blocknetica pools volume across shops → lower per-check costs.
- Compliance becomes affordable — survival with dignity.

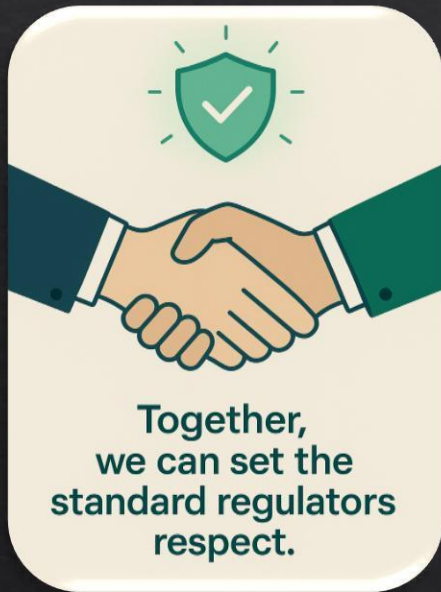

Act early. Lead the industry

“If Top Vapeone acts now, you define the standard regulators respect. If you wait, rules will be forced on you. This is the window for leadership.”

- Early adopters earn recognition — regulators, media, public see you as standard-bearers.
- Wait → **top-down rules** define you.
- Early adoption = reputation insurance + leadership position.

“Not Replacement — Advancement”

- Keep what works today.
- Add: **pooled economics, frictionless UX, tamper-proof proof.**
- Be the retailer others point to as best practice.

👉 *Together, we can build on what you already have — and make Top Vapeone the standard that regulators respect.*
